

Jomala
September 19, 2022

Dear Customer,
You have requested a

REACH SVHC-statement

of the articles we supply you with.

Our suppliers of the raw materials that we use for manufacturing of these articles certify that their products comply with the REACH SVHC regulation candidate list updated June 10, 2022 [1]. Additionally, they certify that none of the 224 SVHC is present, if any, in higher concentrations of 0.1 weight percent of total amount raw material.

To the best of our knowledge, the production process of any of these articles does neither contain steps that could affect the statements mentioned above; elements that in any way could generate the concerned substances have not intentionally been included.

The final products that Optinova Jomala Ab Oy puts on the market and supplies should be considered as “articles” according to the REACH regulations and ECHA’s guidance for articles [2]. To the best of our knowledge, no further obligations towards the current REACH registration directives can therefore be directly applied on any of our articles.

Please be advised, this statement of compliance is true to the best of our knowledge of the facts and regulations. Furthermore, please be aware that the above mentioned does not release you from your obligations under the REACH regulations depending on your role in the supply chain and/or your business model.

Please feel free to contact us for any further question.

Yours truly,
For and on behalf of Optinova Jomala Ab

Joakim Syrén,
Quality Manager
Optinova Jomala Ab
