

# Statement

Jomala, 11.11.2024

## REACH (SVHC)

Dear Customer,

Please be advised that, regarding the list of Substances of Very High Concern (SVHC), our suppliers confirm that the raw materials which we use in our manufacturing comply with the REACH SVHC regulation candidate list updated and published by ECHA (European Chemical Agency) on June 27<sup>th</sup>, 2024. Additionally, they confirm that **none** of the 241 SVHC are present in higher concentrations than 0.1% (w/w) of the total amount raw material.

The production process of Optinova Jomala Ab's products does not affect the statements mentioned above. However, we do not routinely analyze our products for the concerned substances, nor do we require our raw material suppliers to do so. Also, we do not have control over or complete knowledge of the end use or application of our products. Therefore, the decision to comply or not within specific regulations must ultimately rest with your company.

Please be advised that this statement of compliance is true to the best of our knowledge of the facts and regulations. Furthermore, please be aware that the above mentioned does not release you from your obligations under the REACH regulation depending on your role in the supply chain and/or your business model.

Sincerely, for and behalf of Optinova Jomala Ab

Cecilia Engblom

Quality Director, Optinova Quality Åland
